NEWLY CERTIFIED NDDOT DBE

Business: Jose Bustamante
DBA Aerial Mapping Consultants

Owner: Jose Bustamante

Location: 4011 W. Cheyenne Ave. Suite A
North Las Vegas, NV 89032

Phone: (702) 648-5645

Email: amc.jb@cox.net

Web: www.aerialmappingconsultants.com

Description of Services:

- Consultant, other, photogrammetry maps

Jose Bustamante was doing consultant work as a sub-contractor from November of 2010 to April of 2014 when he decided it was time to start and grow a business. Aerial Mapping Consultants (AMC) specializes in topographic mapping, ALTA mapping, DTM collection, orthophotos, etc. and AMC has become a newly certified North Dakota DBE.

In 1997, Jose was a plumber's apprentice working only 2 days a week due to waiting on construction. His wife worked next door to an office that was a mapping company and would occasionally talk to a girl that worked there. One day the girl overheard a phone conversation his wife was having with Jose about how he didn't have consistent 40-hour work weeks. The girl told his wife that they were looking to hire new trainees. When his wife told him, Jose had no idea what it was and was weary of what it was they did, but it was guaranteed 40 hours so he took the job. Jose worked for that company until they eventually closed their Las Vegas office in 2010 due to the 2008 housing market crash.

Jose likes what he does. He works on many different projects before others know what is going to be built. He gets to see areas from many states, it's like working at a different job site without leaving his office. Jose states his greatest obstacle in business is, "Learning how to not micromanage every detail and that some things are out of my control no matter how hard I try or want it to run smoothly, but I helped my wife start her own business, so we kind of lean on each other" is how he overcomes this.

One of Jose's most interesting projects was he drew an ALTA of a solar site, 5700 acres fits a lot of panels! Jose is looking forward to bidding on NDDOT projects and growing his business, from hiring more employees to working with the newest mapping technology and drones. He thinks as the accuracy of cameras and technology of Lidar, you can put on drones, it will be a big part of Mapping and Surveying in the future.

NEWLY CERTIFIED NDDOT DBE

Business: VDP Safety and Uniforms LTD.
DBA VDP Safety & Uniforms Ltd.

Owner: Phoebe Lee

Location: 11811 Shaker Boulevard Suite 416
Cleveland, OH 44120

Phone: (216) 352-1026

Email: info@vdpsafety.com

Web: www.vdpsafety.com

Description of Services:

- ACDBE: Safety equipment including gloves, eyewear, cones, etc. Safety apparel including vests, flame retardants, apparel, etc. Uniforms.

Phoebe, President of VDP Safety and Uniforms, LTD, came from an entrepreneurial family which was the only life she knew, started her business in 2013, and has become a newly certified North Dakota AC-DBE/DBE. VDP Safety and Uniforms, LTD specializes in safety supplies and uniform apparel. Even though her company office is located in Cleveland, Ohio, they are able to ship products nationally.

After graduating from Clark Atlanta University, Phoebe continued her studies as a fashion designer at Savannah College of Art and Design. She embarked upon a successful modeling career appearing on Good Morning America, The Today Show, NY Live, VH1, among other networks. She has been featured in several magazines including InStyle Magazine. Transferring her love for fashion into her dream business, under her leadership, VDP has acquired an impressive portfolio of clients on a local, regional, and national level. Phoebe was recently selected as one of 13 Millennial CEO's nationally to participate in the Emerging Young Entrepreneur (EYE) Program sponsored by the National Minority Suppliers Development Council (NMSDC). Active in the community, she serves as a mentor for high school students at John Hay High School through the ACE Program. Phoebe wants to make a difference as a young business owner.

Phoebe likes the opportunity to help clients find solutions. Her goal is to become a manufacturer which is a process that she is pursuing now. This will allow her to be more competitive instead of being the middle person in the supply chain. Phoebe was asked what is in the future for VDP Safety and Uniforms, LTD and states, "Owning and operating a manufacturing facility and designing an exclusive uniform line."

NEWLY CERTIFIED NDDOT DBE

Business: Design Rich Architect, LLC
Owner: Joyce Fries-Brune
Location: 1604 So. Washington Street, Suite 103
Grand Forks, ND 58201
Phone: (701) 213-7922
Email: joyce.brune@dsgnrich.com
Web: www.dsgnrich.com

Description of Services:

- Architectural Services

Joyce Fries-Brune started Design Rich Architect, LLC in Pasadena, Maryland on January 14th of 2014 as a woman owned business with a home office, certified by the state of Maryland as an MBE/DBE/SBE to provide architectural consulting services. Design Rich Architect, LLC closed its doors in Maryland and relocated to an office in Grand Forks, North Dakota on June 15, 2016, and is recently certified as a new North Dakota DBE. Design Rich Architect, LLC serves the areas of North Dakota and Minnesota.

Design Rich Architect, LLC provides thirty-five years of accumulated knowledge, skills and experience of architectural means and methods and is expert in design, sustainability, composition and color.

"The heart of our effort is to deliver economical, constructible architectural solutions that meet the owners' functional needs and project vision. We begin with a broad stroke conceptual design that can be massaged according to the owners' views. We understand that early on not all questions have been asked and answered. The shared goals of our team strive to effectively meet the spectrum of project needs and functionality by listening, developing an understanding of each perspective, and responding appropriately.

As the project develops we keep our eyes and ears open for barriers as they arise with the aim of avoiding costly delays by connecting with team members early and often. We share our experience with systems and materials, discuss the influence of conditions and concerns on design choices. By integrating building system elements into the overall design early in the process, costly changes in subsequent phases of the project may be reduced.

Final, workable documents embody the principles established during the design process, detailing design elements, coordinating with related systems, complying with relevant codes, and specifying an inspections program. During the construction phase, we review shop drawings, respond to contractor-initiated requests for information, and pertinent site visits to ensure compliance with the contract documents and approved shop drawings.

Reviews are performed on a regular basis throughout the progress of documents and at the conclusion of each design phase. Reviews cover code compliance, design calculations constructability, and coordination with other building systems. All problems must be addressed before any documents are released for construction. Reviews are scheduled to allow time for team members to respond. QA/QC reviews do not replace the normal process of decision-making throughout a project or exclude other opportunities for the project manager to receive input. Project leaders continue to take responsibility throughout the design process for fielding questions and engaging others in discussions about the project.

We understand our responsibility as part of the overall team, to manage budget, to anticipate needs, and to respond with options in a timely manner, thus allowing more accurate decision-making early in the design process and throughout the entire project. Furthermore, we understand the local and regional markets for construction materials, cycles, contractor preferences, and the critical schedule issues that are affected by systems decisions."

Whether you're building a new facility, renovating an existing building, or planning land use, Design Rich Architect, LLC can provide added value to your building project in a very rich way.

B2G NOW ONLINE WEBINAR TRAINING SESSIONS

The following links will allow you access to the upcoming live webinar B2GNow system training sessions:

- **Introduction to the System, April 25, 2017, 11-12 PM CT**
